Copper Canvas Whi2k3y Sour NV

CCS010NV

Copper Canvas

— East Sussex, Great Britain

A one-stop option for serving whiskey sour cocktails. Made using spirits made from scratch, all real fruit, and a master distiller managing the blend.

Production

Taking our base whiskey profile of Rye and Wheat distillate, we blitz fresh lemons and grapefruit with a small amount of sugar , and blend together for a perfect simple cocktail ready to serve. All natural flavours, all real fruit.

Tasting note

Whiskey Sour in a bottle. Smooth whiskey flavours with freshness and 'zing' coming the real citrus fruits, balanced perfectly with a syrupy sweetness.

Food Match

Very simple – shake the bottle and then pour over ice. For an even more authentic Whiskey Sour experience, try adding egg white into a shaker with Whi2k3y Sour, shake, and pour over ice – it adds the froth and a creamy element to the drink!
