Production

The organically-grown Monastrell grapes are selected from vineyards in the Alicante region of eastern Spain. After destemming the grapes are gently pressed and undergo temperature-controlled fermentation at 26°C with selected yeasts. Malolactic fermentation takes place in stainless steel.

Tasting note

Pronounced dark fruit aromas with spicy notes. The palate has ripe blackcurrant and plum characters, savoury notes and hints of black pepper. A mid-weight fresher style of Monastrell. Richness and supple tannins add grip and complexity.

Food Match

Serve with red meats, game and strong cheeses.
