Zorgvliet

— Stellenbosch, South Africa

Decanter World Wine Awards Silver 2023

A fine example of sustainably produced, cool climate Sauvignon Blanc from the Banghoek Valley.

Production

Silvermyn's vines cling to the steep slopes of Simonsburg's south-eastern face some 320-540m above sea level on thin, decomposed granite soils. The grapes were hand-harvested, crushed and destemmed. Skin contact of 6 hrs was given. The juice was then pressed and cold settled for 2 days at 8 C. It was inoculated with a terroir selected yeast strain. After fermentation the wine was left on the fine leese upon which it was clarified for bottling. There was no malolactic fermentation or wood aging.

Tasting note

Light yellow in colour with hints of lime green, the nose shows aromas of green melon, kiwi fruit and guava. This character is true to the Banghoek terroir - lots of gooseberry zip, linear, crisp and racy. This is a bright, zesty wine with youthful acidity leading to a multi-layered palate showing distinct mineral and fresh lime flavours on the finish.

Food Match

BBQ prawns and light summer salads, avocado with prawns

ABV:
13.00%
