90% of the 9ha vineyard is planted with an even split between Semillon and Muscadelle, the latter is a fascinating variety, often in the background but it can be the real star of the show. The balance is Sauvignon blanc and the recently allowed Chenin.

## Production

A fresh blend of Semillon, Muscadelle, Chenin and Sauvignon Blanc. This balances round rich stone fruit with great texture from lees ageing.

## Tasting note

Fresh and bright, this is a summery, smiling, singing glass of wine.

## Food Match

Crying out for seafood, something like a fish pie with parsley butter.
