Production

Wine is made from Georgias's indigenous grape variety – Saperavi, which is hand harvested from the Kakheti Region (East Georgia). Wine undergoes 7-10 days of fermentation on skins. Once fermentation is complete, skins are removed from the wine. 50,000 bottles were produced.

Tasting note

Saperavi is often compared to Malbec, Cabernet Franc and even Gamay depending on how it is made. This is dark, juicy and fresh, beetle-black in hue, rich and full but finishes really brighttly with a gentle grip. Its delicious.

Food Match

The wine pairs well with spicy sausage stew, a juicy burger and barbecued meats.
