Production

Local variety Duras plus Syrah, Merlot and Cabernet Franc grown on south-facing slopes with clay-limestone soil. Wine making is traditional with a long, slow ferrmentation in concrete tanks with only the grape yeasts. No oak treatment and closure is Select Green recyclable Nomacorc.

Tasting note

Soft but wild bramble fruit with a touch of herbiness on the nose and a grippy but approachable palate. Just on the right side of funky, nicely balanced and very digestible.

Food Match

Try with grilled meats, duck breast or hard cheeses.
