Cavit

— Trentino, Italy

Trentino is one of Italy's best sources of high quality Sauvignon Blanc. This is a refreshing and incisive example sourced from Cavit's wealth of cool hillside vineyards.

Production

Grapes are sourced from vineyard slopes in the Valle dell'Adige and Valle dei Laghi. The de-stalked grapes are left to macerate cold for about 12 hours in contact with the skins, and are then soft pressed. Temperature-controlled fermentation is followed by a short maturation period in stainless steel.

Tasting note

Typical varietal aromas of citrus and herbaceous notes. The palate is fresh and lively with lemon and white grapefruit characters, and attractive mid-palate weight, leading to a crisp, zesty finish.

Food Match

Pair with white fish, white meats and pasta salads.
